POPE SENDS PEACE PROPOSALS TO BELLIGERENT NATIONS

BASIS FOR WAR'S END SUBMITTED

Concrete Plan Outlined By Pontiff Provides for Restoration of All Lands Seized By Both Sides and Solution of Problems of Annexed Provinces

(Associated Press by U. S. Naval Communication Service)
ROME, Italy, Aug. 14.—Pope Benedict XV, in an effort to bring about an end to the frightful slaughter in war-ridden Europe, has, it was learned today, sent by special envoys, peace proposals to all the belligerent nations.
These proposals are embodied in a concrete plan which His Holiness submits as a basis on which the warring nations may be brought together for discussion, and include:
1.—The restoration of Belgium.
2.—The restoration of Serbia.
3.—The restoration of Rumania.
4.—The restoration of Germany's lost colonies; and,
5.—The peaceful solution of the vital national issues of Poland, Alsace, Italia Irredenta and Armenia.

Residents of Kalihi Begin Welfare Work

Betterment of Youth of Community Aim of Organization Formed Sunday Night; Will Build Clubhouse

To promote the general welfare of the youth of the community, the residents of the Kalihi-Kali district met on Sunday night and formed a community organization, elected officers, and drew up a petition bearing upon the purpose of the organization, which is being circulated in that part of the city.

"This is one of the districts of Honolulu where the roads are the only places where the children have to play," declares one resident of the district.

"We want to keep the young men and children off the streets if we can. It is our plan to secure, first of all, a park where sports of all kinds will be encouraged, and, also, establish quarters where educational lectures, concerts, and socials can be given," added the resident.

The petition says that since the residents of Honolulu "have at all times condemned and disapproved the bad conduct and boisterous behavior of many of the youths in their neighborhood" it is desired that the "younger generation be respected, honorable and self-respecting citizens."

It is their intention to prevent, obviate and improve these conditions. Further stating that the association desires establishing and maintaining "suitable premises as quarters or clubhouse, for the use of its members and their guests," the petition calls upon the citizens of that district to pledge their support to the cause of the organization.

GIFFORD HEADS STOCK EXCHANGE

At the annual meeting of the Honolulu Stock & Bond Exchange this morning, Harold B. Gifford was elected president and W. A. Love vice president. D. L. Conkling was re-elected secretary and the Guardian Trust Company to act as treasurer.

J. L. Fleming, the retiring president, in a short talk, said that while the sales this year were not as large as last year, the year as a whole had been very successful, and he looked for an even better year to come.

CHINESE IS SENT TO HOSPITAL AFTER FIGHT

With a deep gash over his left eye and a badly bruised head, Wong Loo, an Oriental employee of the Hawaii Preserving Co. at the pineapple cannery in Iwilei, was brought into the Emergency hospital this afternoon following a fight with a part Portuguese and a Hawaiian man. The man was released from the hospital not long after the wounds had been attended to.

In the quarrel at the cannery, it was asserted that one of the other two men mixed up in the scrap picked up a stick and threw it at Wong Loo, cutting him over the eye.

KOREANS SEEK SUPPRESSION OF VICE ON OAHU

Association Solicits Aid of Anti-Saloon League in Eliminating Liquor, Gambling

Suppression of vice, including drinking, gambling, and opium smoking, among the Koreans in Hawaii, is the basis of a territory-wide campaign which has been launched by the Korean National Association, and in which the cooperation of the Anti-Saloon League has been solicited.

In letters which are being sent out by the association, outlining the purpose of the campaign it is pointed out that it is the desire of the members to aid the courts, the police authorities and the plantation heads in enforcing all laws relating to gambling, drinking and opium-smoking. These letters, says the letter, are becoming prevalent among Koreans working on plantations, as well as among those living in the cities. The letter adds that a majority of the Koreans in Hawaii are opposed to these vices, and stand ready to do their share toward suppressing them.

The letter follows:
"The Korean National Association, an incorporated body for the purpose of raising the standard of the Korean people in the territory of Hawaii, and the leaders of the Korean churches, have recently requested the Anti-Saloon League for the purpose of promoting temperance and public morals, to cooperate with them in regard to the suppression of certain vices, which they have found are becoming to some extent prevalent among the Koreans working on the plantations as well as those living in the cities.

"They state that a majority of the Koreans in the islands are opposed to these vices and are ready to stand together in suppressing the evils of drinking, gambling and opium smoking. The Anti-Saloon League is especially requested to assist the Koreans in bringing before the court and police authorities and plantation managers their desire to aid in enforcing the law very rapidly among their countrymen.

"The Korean leaders have expressed their appreciation of the cooperation of the plantation managers in the past, but have felt in some cases the enforcement of the law against drinking and opium-smoking has not been rigid enough. The Korean National Association leaders would like the plantation managers to instruct the plantation policemen to cooperate with Korean policemen in prohibiting the above-mentioned vices from being carried on in Korean camps and also in prohibiting the Korean laborers from going into the Chinese camps where such vices are said to be most prevalent. They further state that the Korean policemen are instructed to arrest all violators of the law but that they are powerless, unless they are backed up by the regular policemen of the plantations.

FARM CATTLE INJUNCTION SUIT IS DISMISSED

As the mules belonging to the Schuman Carriage Co. have been removed from the quarantine station at Ala Moana, the company today discontinued the injunction suit brought against H. H. Rice and other members of the board of agriculture and forestry. The suit sought to restrain the board from moving the Farm dairy herd, in which anthrax first broke out on this island, to the quarantine station where the Schuman mules were quarantined.

The injunction suit is discontinued on the ground that as the grounds on which an injunction was sought against the respondents have ceased to exist, complainant has no reason to apply to the court for the relief prayed for.

Shortly after the filing of the suit, the board moved the Farm herd to a place on the beach about a mile from the quarantine station.

BIDS FOR KALIHI'S SEWER SYSTEM OPENED

Tenders for the installation of a sewer system for the Kalihi district were opened today and the Spalding Construction Company with a bid of \$49,467.40 was the lowest by nearly \$19,000. The Lord-Young Engineering Company was next with \$68,295 and Walker & Young was the other bidder with \$68,802. As only \$45,000 was appropriated by the legislature for this work the bids may have to be rejected unless the board of supervisors appropriates the difference.

GIRL'S THIRD SUICIDE TRY AGAIN FOILED

Russian Young Woman Drinks Liniment But Timely Intervention Saves Her

In vain, Alice Medvedeva, a 21-year-old Russian girl, today attempted to end her life for the third time by drinking liniment at her home, Miller and Punchbowl streets. Hearing of the attempt, the police rushed to the scene and brought the girl to the Emergency hospital where the poison was drawn from her system. She returned home early this afternoon on the way to recovery.

Following unhappiness that has arisen out of family differences, Alice has three times attempted to bring it to an end by drinking, in each case, liniment.

MAN, WOMAN VICTIMS OF RIVAL'S FURY

Pretty 18-Year-Old Filipino Girl and Lover Stabbed, Now in Hospital

JEALOUSY of the man who he declared had alienated the affections of a pretty 18-year-old Filipino girl, who he claimed was once his wife, Henry Alcantara, another Filipino, stabbed both the girl and the man yesterday afternoon shortly before 3 o'clock, and inflicted dangerous wounds. Eustaquia Ellama, the girl, is now in the Queen's hospital recovering from wounds in the back, while Pedro Bandalan is at the Emergency hospital recovering from similar wounds.

The police ambulance was called to Waiapahu, the scene of the stabbing fray, yesterday afternoon where Alcantara was discovered with a long dagger in his hand shortly after the attack. When the police gave chase he threw his dagger into a pond. He surrendered when faced with a loaded revolver.

Although both victims of the assault may live, Alcantara is now being held in the police station pending trial.

John Kellett, acting chief of detectives, was up to see Makaloa Saturday, but the man was not ready to give his version of the shooting affair.

PRIVATE'S LOOSE TONGUE RESULTS IN DISCHARGE

Because he thought "tough guys" didn't have to stop swearing when told to and because he sought to prove his point by striking a sergeant who ordered him to cease his line of talk, Pvt. George McCullough, Co. L, 1st Infantry, has been discharged the service and sentenced to confinement at hard labor for 18 months.

McCullough's disrespect was shown toward the sergeant of another regiment, the 32nd Infantry, who had asked him to stop swearing.

"I don't have to stop swearing," replied the would-be bad man, "I'm just as tough a guy as is around here."

Then McCullough swung on the sergeant who had given the order, striking him full in the face. The private got a general court martial for it, and will spend the next year and a half at Alcatraz.

MEETING CALLED TO DISCUSS ORGANIZATION OF JAPANESE MILITIA

Brig-Gen. Samuel I. Johnson, adjutant general of Hawaii, has called a meeting for Thursday night as the first step in the organization of a Japanese company of the National Guard of Oahu.

MORE EFFICIENCY, LESS POLITICS, IS URGED BY COLLINS

City Engineer Outlines Qualifications of His Successor and Says He Should Be Paid a Salary in Proportion to His Ability

A technical college education.
A wide experience in municipal work.
The ability to organize.
A thorough knowledge of business principles.
These, according to George M. Collins, should be the qualifications of the engineer selected to direct Honolulu's \$1,000,000 road program.

THE qualifications of the man selected as city and county engineer of Honolulu to handle the \$1,000,000 road program and the manner in which the department should be operated, have been outlined by George M. Collins, the incumbent, who is leaving next month to take the position as chief engineer of the B. P. Bishop estate.

This question is now one of the vital issues which has come before the mayor, board of supervisors and people of Honolulu to decide. A \$1,000,000 has been made available for road construction in the next two years and just at the beginning of the work it becomes necessary to choose a new engineer to carry it out.

Engineer Collins has been in charge of the road and engineering department for approximately a year and a half, during which time the foundation for the future work was laid and, as a result, he has been able to study the requirements of the office and form conclusions as to its efficient administration.

In the interview which he has given the Star-Bulletin, Mr. Collins has, besides outlining his ideal of a city and county engineer, also suggested many changes which should be made before it can be truly said that the department is on a sound and efficient basis.

"In the first place," Mr. Collins says, "it is absolutely necessary that a man with a technical engineering

HAWAII DELAY HALTS REPORTS ON REGISTRATION

Kauai and Maui Carried Out Work Without Expense to U. S.

The islands of Maui and Kauai have carried out their registration work without a single item of expense to the federal government, according to a statement today by F. J. Green, executive officer of the central board. These islands and Oahu have responded nobly to the call for gratuitous service.

Mr. Green today received the final statements from Sheriff Clem Crowell of Maui, who, he says, along with the board of supervisors and registrars has done absolutely all that could be expected.

Kauai has been first to get in the summarizing report, but to Maui goes the honor of filing first the complete returns.

"Owing to the action of the Hawaii board of supervisors," said Mr. Green, "the full report to the territory will be greatly delayed, and I am not able to say at present when this will be sent to Washington."

Sheriff Rose and his helpers, with their big share of the registration burden, are working day and night to get their report filed for this island.

KANSAS SALOONS CLOSE DOORS PENDING RULING ON "CAMP" REGULATION

(Associated Press by U. S. Naval Communication Service)
KANSAS CITY, Mo., August 14.—What is a "camp" in the sense of the word as used by the president in his regulations establishing a dry zone within the limit of an incorporated city?

The federal authorities have taken up the matter and a test will either be made at once in the courts or a ruling will be sought from the attorney-general of the United States. In order that a speedy decision may be arrived at.

TEUTON ALIEN ENEMIES MUST NOW GET PERMITS TO TRAVEL ABOUT ISLANDS

Cabled Advices From Washington Instruct U. S. Attorney Huber to Pass on All Cases and Authorize the Issuance of Permits for Legitimate Reasons

CABLED instructions received by U. S. Attorney S. C. Huber from the department of justice, Washington, D. C., late yesterday, draw the net of federal surveillance still closer about German alien enemies in the territory. The instructions prohibit German aliens from traveling from island to island, except in cases where they are granted special permits. Whether such permits shall be granted rests entirely with District Attorney Huber.

The new instructions have a three-fold purpose: First, they place the federal authorities in a position to observe more closely the movements of alien enemies; second, they afford greater protection to residents of Hawaii from pro-German demonstrations, and, third, they protect the aliens themselves from illegal seizure and search by persons purporting to be connected with the U. S. secret service.

Under instructions issued shortly after the United States entered the war, all German aliens in Honolulu are required to have permits allowing them to reside and do business in the several restricted areas already established in Honolulu, which includes the business district and areas within half a mile of forts and others government works or stations. Germans residing on the other islands are also required to have permits before they can enter these restricted areas, even if only visiting. Honolulu for a day or two on business.

Huber Passes on Permits
The instructions received yesterday establish a new set of rules regarding permits, and in which the permits already issued play no part. From now on all German aliens desiring to travel from one island to another in the territory must apply to District Attorney Huber for a permit, and it is for him to say whether or not the permit shall issue.

Attorney Huber will personally investigate all applications for permits and, if he sanctions the application, Marshal Jerome J. Smiddy will then issue the permit. This rule not only applies to German aliens living in Honolulu, but to such persons living anywhere in the islands.

For instance, if a German residing at Lahaina desires to travel to Hilo, he must make application to the U. S. attorney, either in person or in writing, for his permit. His case will be passed upon in the same manner as all others. As federal officials will be enforced in the same manner as the ones issued some months ago, when all aliens in Honolulu were required to register, and all cases of violation will be summarily dealt with.

Not only will these regulations serve as a protection to the general public, as well as allow the federal authorities to keep a closer watch on the movements of all alien enemies, but the German aliens themselves will be benefited.

Marshal Smiddy said today: "These instructions are going to be of benefit to all German aliens in Hawaii for the reason that, with permits their possession, they will not be subject to illegal seizures and searches by persons passing themselves off as federal secret service agents."

The new instructions go into effect immediately.

U. S. SOLDIERS OBJECT TO BEING CALLED 'SAMMIES'

(Associated Press by U. S. Naval Communication Service)

AMERICAN CORPS IN FRANCE.
Aug. 14.—The men forming the first expeditionary force from the United States have just learned through American newspapers that they have been tagged with the appellation "Sammy's," and are deeply resentful, considering the nickname as undignified and irritating. Not only the boys of the army but American residents are declared opposed to the term.

DRUNKEN CHAUFFEUR GETS THREE MONTHS IN JAIL

Revocation of his license to operate and drive an automobile for three months and payment of \$25 and costs of court, was the order of Judge Harry Irwin to Manuel Reis, Portuguese, this morning in police court. Reis was arrested yesterday for trying to navigate an automobile, while he was under the influence of liquor.

MAYOR LOSES RIGHT TO NAME CITY ENGINEER

Deputy Attorney Davis Rules Power to Fill Appointment is Vested in Board of Supervisors By Old Ordinance

UNDER ordinance 32 the appointment of the city and county engineer is vested solely in the board of supervisors and the mayor has nothing to do with it.

This is the bomb which was dropped by Deputy City Attorney Charles Davis at the meeting of the board of supervisors Monday night and as a result the entire situation relative to the office of city and county engineer has been changed in favor of the Republicans.

The surprise was sprung by Attorney Davis following the request of Supervisor McClellan for a legal opinion of the ordinance establishing the position of assistant city and county engineer whether the board had the power to give the assistant the same powers vested in the city engineer.

Ordinance 32 establishes the office of city and county engineer and was passed years ago by a board which had the right to appoint and since then no law has been passed changing its meaning, according to Mr. Davis. When the ordinance creating an assistant engineer came up for third reading Supervisor Mott-Smith asked that the vote be deferred as he would like to have a report from the road department on the subject.

Supervisor Arnold replied that the reorganization of the road and engineering departments hinged on the passage of the ordinance and urged that the vote be taken. Supervisors Hollinger and Ahia also came out in favor of voting at once. Supervisor Adams, however, thought the board ought to appoint a city engineer now and not bother about an assistant. Mr. Mott-Smith, however, held out for the report first.

Supervisor Petrie then made an appeal to the board to get together with the mayor and settle on some man who would be acceptable as city engineer.

"You won't say that you are not big enough to meet the mayor and take the question up openly," he said. Supervisor McClellan then raised the question of validity resulting in Attorney Davis' answer.

HILOITES WOULD SUBSCRIBE FOR TERRITORY BONDS

W. R. Hobby, acting chairman of the harbor board and superintendent of public works, returned this morning from Hawaii confident that the people of Hilo would be willing to subscribe among themselves for territorial bonds in order to get work started on the new Kujio wharf.

Hobby met with the Hilo board of trade and found its members heartily in favor of beginning work on the structure to the amount proposed by the legislature—\$150,000. As bonds seem to be difficult to sell in the eastern markets, however, local investors are being asked to consider purchases from them.

Waiolama-swamp work is nearing completion, there being but 15,000 or 20,000 yards of earth yet to move. This work is delayed through lack of sand near the dredger.

ARRAIGN HART ON HIS ARRIVAL

Lionel R. A. Hart, former local stock broker who was indicted by the territorial grand jury on two charges of embezzlement, will be arraigned before Circuit Judge William H. Heen at 9 o'clock tomorrow morning provided he arrives on the steamer Matsonia in company with Detective Captain Arthur McDuffie.

It was announced today that Hart has retained Attorney William B. Lymer as his attorney. Hart's bail has already been fixed by Judge Heen in the sum of \$3500. His case will be one of the first to go to trial when the fall session of court opens, says City Attorney A. M. Brown, providing the case is not otherwise disposed of.

Hart was formerly local representative of the Charles Stoneham Co. of New York, and is alleged to have left his accounts in bad condition when he left here for Japan. According to the indictments returned by the grand jury, his alleged defalcations amount to about \$10,000.

CHINA DECLARES WAR ON TEUTONS

(Associated Press by U. S. Naval Communication Service)

WASHINGTON, August 14.—Information was received by the Chinese minister here today that China has officially declared war on Germany and Austria in line with the policy determined on following the recent crushing of the monarchical revolt.

HUN PAPERS SEE DAWN OF PEACE IN BRITISH LABOR ROW

(Associated Press by U. S. Naval Communication Service)

ZURICH, Switzerland, Aug. 14.—Austrian newspapers are jubilant over the resignation of Arthur Henderson, British labor leader, from the cabinet. They regard it as presage the wreck of the English cabinet and herald his withdrawal as betokening the dawn of peace.

PAGO PAGO HUN GOES TO PRISON FOR TREASON TALK

(Associated Press by U. S. Naval Communication Service)
PAGO PAGO, Samoa, Aug. 14.—William Hutch has been convicted here by court martial of seditious utterings and sentenced to prison for the period of the war. Hutch is a German-American.

U. BOAT TOLL DURING WAR 9748 LIVES

(Associated Press by U. S. Naval Communication Service)
LONDON, Eng., Aug. 14.—Figures made public here by the admiralty show that the human toll taken on British merchantmen since the beginning of the war is 9748 lives. Of these 3878 were passengers.

BRITISH WASP SUNK BY MINE

(Associated Press by U. S. Naval Communication Service)

LONDON, Eng., Aug. 14.—A British destroyer on scout duty has been sunk in the North Sea as result of a collision with a German mine. No word has been received as to the loss of life.

MARTIAL LAW RULES SPAIN

(Associated Press by U. S. Naval Communication Service)
MADRID, Spain, Aug. 14.—Martial law has been proclaimed through the country because of the general strike representing all trades. The agitation is spreading. The railroad employees are considering a general walkout in sympathy with the strikers.
